

Evaluation Criteria:**1. Proposal (Maximum 5 points)**

2 points	Team member selection and a description of the project
3 points	Requirement list of what your site will do

2. Client-side/Server-side – Minimal requirements (Maximum 40 points)

	----- General -----
2 points	Layout document (Planned layout of your page showing elements, sizes, placement – this is the plan for what your site will look like)
2 points	Organization of pages (How are pages linked? – site map)
1 point	Layout with contextual menus (i.e., when user has logged on to site, menus reflect change)
1 point	2 or 3-column layout using appropriate design principles (i.e., highlighting nav links when hovered over, etc.)
1 point	Navigation links along the top
1 point	Has a masthead and a footer
1 point	Navigation links need to be available regardless of where a user is viewing the page
1 point	Navigation breadcrumb strategy (i.e., user can determine where they are in threads)
1 point	Page for user registration
1 point	Form entry of user information along with user image
1 point	Form validation with JavaScript before submission
1 point	Responsive design philosophy (minimum requirements for different non-mobile display sizes)
1 point	AJAX (or similar) utilization for asynchronous updates
2 points	Preliminary summary document for server-side, indicating implemented functionality
2 point	Post storage/Discussion thread storage in database
2 point	User account information stored in the database (including user image)
1 point	Appropriate security for data
1 point	Site must maintain state (user state being logged on, etc.)
1 point	Error handling
	-----User Functionality -----
2 point	Browse discussions/posts without registering
2 point	Search for discussions/posts by keyword without registering
2 point	Register at the site by providing their name, e-mail and image
2 point	Allow user login by providing user id and password
2 point	Create and comment when logged into the site
1 point	Users are required to be able to view/edit their profile

1 point	User password recovery (via email)
	-----Admin Functionality -----
2 points	Search for user by name, email or post
1 point	Enable/disable users
1 point	Edit/remove posts and comments

3. Client-side/Server-side – Additional requirements (Maximum 20 points)

4 points Each	Collapsible posts/threads without page reloading
	Hot threads/hot posts tracking - show items by ranking
1 point	Alerts on page changes
	Accessibility
	Tracking comment history from a user's perspective
1 point	Activity by date
1 point	Resolve user problems (such as forgotten passwords)
	Admin view reports on usage (with filtering)
1 point	Advanced site design (animation, icons, gradient text and more)

4. Full site - Final delivery of site with additional functionality (Maximum 35 points)

5 points	Summary of features implemented
10 points	Walkthrough document (minimal/additional: 6/4)
10 points	Detailed description of your implementation (minimal/additional: 6/4)
10 points	Deployment, client- and server-side unit testing
